I am an IT specialist and student at the Lublin University of Technology. Thanks to excellent work organization and interpersonal skills, I adapt quickly to new environments and am not afraid of new challenges. I carry out assigned tasks efficiently and accurately, following my supervisor's guidelines and feedback. I am also able to take initiative. I am characterized by high discipline and above-average commitment. My interests include sports, particularly volleyball, which I actively train, as well as modern technology.

EXPERIENCE

- **12.2025-present IT Specialist**
ALFA SYSTEM Alicja Włodarczyk
 - Remote helpdesk and on-site (mobile) client support
 - Building, configuring and maintaining computer networks (routers, switches, access points)
 - Implementing and servicing POS, warehouse and ERP systems (INSOFT, INSERT – PC-Market, PC-POS, SubiektNEXO)
 - Servicing, configuring and fiscalizing fiscal devices (certified Novitus technician)
 - Working with SQL databases used by POS, warehouse and ERP systems (AdminSQL, MS SQL Server)
 - Servicing computer hardware (PCs, laptops, POS terminals)
 - Maintaining technical and service documentation
 - Handling the company's IT needs and resolving technical issues
 - Managing the company's social media (Facebook, Instagram)
- **10.2020 Professional Internship**
Provincial Police Headquarters in Lublin
 - Maintaining IT, ICT and telecommunications equipment
 - Building local area networks (LAN) and troubleshooting network issues

PROJECTS

- **2026 Server Rack and Cabling Modernization**
Networking projects for clients

Organizing and modernizing network installations – including moving cabling and network equipment from a drawer into a rack cabinet. Fitting rack cabinets with patch panels and clearly labeled cabling. Upgrading and reconfiguring existing installations
- **2026 IT Service Management Application**
Project deployed at an IT service company

A web application for managing orders, clients and equipment at a computer service company – admin panel, statistics, team calendar. Used daily in a real company.
Technologies: React, Node.js, Express, SQLite, JWT
- **2026 Insoft Update Reminder**
Personal project – automation bot

A bot that monitors the Insoft FTP server and partner portal for new versions of PC-Market, PC-POS and ScServer – sends automatic notifications via Discord and email. Runs as a Windows/Linux service.
Technologies: Python, discord.py, SQLite, FTP, SMTP

Full portfolio: dariusz-bochynski.pl/en/projects

I consent to the processing of my personal data by the company for the purposes of the recruitment process for the position I am applying for.
